Professional Summary

Computer Science undergraduate with strong skills in Java, Python, SQL, Machine Learning, and backend development. Familiar with REST APIs, AI/ML concepts, scalable application development, and software debugging. Passionate about developing intelligent applications and backend systems with strong analytical thinking, problem-solving, and teamwork skills.

Education

Sai Vidya Institute of Technology, Bengaluru Bachelor of Engineering in Computer Science and Engineering	2022 – 2026 CGPA: 9.3/10
Mahesh PU College, Bengaluru Pre-University Education (PCMB)	2020 – 2022 98.6%

Internship Experience

AI Internship – Placemantra

- Worked on AI and Machine Learning based software projects using Python.

Data Visualization Training – Anudip Foundation

- Completed training in Data Visualization and dashboard development concepts.
- Developed interactive dashboards using charts and reporting techniques.

Technical Skills

Programming Languages: Java, Python, JavaScript, C

AI/ML Technologies: Machine Learning, NLP, Data Preprocessing, Model Evaluation

Backend Technologies: Java Backend Development, REST APIs, API Integration

Frameworks & Tools: Git, GitHub, VS Code

Core Computer Science: Data Structures, Algorithms, OOP, DBMS, Operating Systems

Databases: MySQL, SQL Queries, Database Management

Software Engineering: Debugging, SDLC, Agile Methodologies, Unit Testing

Additional Concepts: Problem Solving, Software Testing, API Documentation

Projects

AI Virtual Assistant Chatbot

Python, NLP, REST APIs

- Developed a chatbot using Python to answer user questions and provide responses.
- Used basic NLP techniques to understand user input and improve interaction.
- Integrated APIs and tested the application for better performance.

Anomaly Detection in Web Log Data

Python, Machine Learning, SQL

- Built a machine learning project to identify unusual activities in web log data.
- Used Python and SQL for data processing and model training.
- Improved prediction accuracy through data cleaning and testing.

Multimedia Steganography System

Python, OpenCV

- Developed a Python application to securely hide text inside image files.
- Implemented encoding and decoding features with password protection.
- Used OpenCV for image processing and testing functionality.

Certifications

Java Fundamentals – Infosys Springboard

Data Structures & Algorithms – Infosys Springboard

Python Bootcamp – Udemy

AI A-Z – Udemy

AWS Cloud Foundations – Self Learning

Achievements

- Winner – Google Developer Groups Hackathon among 50+ participating teams.
- Top 5 Finalist – SVIT Innovation Competition for software project development.
- Second Runner-Up – Technova Challenge for software innovation and problem-solving.
- Participated in National-Level Hackathon conducted at SIET, Tumakuru.
